## PROFILE

- Dual-focused Unity Developer specializing in XR and Game Development with 3+ years of experience building immersive simulations for VR training applications, quick prototyping and interactive games. Early team member who helped scale a startup from 3 to 20+ members.

## EDUCATION

Jawaharlal Nehru Architecture and Fine Arts University

Aug. 2018 – Aug. 2022

*B.Tech in Computer Science and Game Development*

Hyderabad, India

## SKILLS AND TECH STACK

- **Languages:** C#, Node.js, C++, SQLite
- **XR Technologies:** Unity XR, OpenXR, Meta XR, SteamVR, SenseGloves, WebSocket
- **Game Development:** Unity 3D/2D, Game Design, UI/UX, Physics, Optimization, Animation
- **Tools:** Git, Arduino, AI-Assisted Development, Real-time Systems Design

## SOFT SKILLS

- **Communication:** Presented VR demos to defense officials
- **Agile Methodology:** Sprint planning, daily stand-ups, iterative development

## EXPERIENCE

Edgeforce Solutions Pvt Ltd.

Apr. 2023 – May 2026

*Unity Developer (XR and Game Development)*

Hyderabad, India

- **XR and Game Development:** Developed XR projects using OpenXR, SenseGloves, WebSocket, Meta XR, Unity, SteamVR. Reduced training time by 40 percent.
- **Simulation and Networking:** Built physics-accurate simulations; implemented low-latency WebSocket and Node.js backends.
- **Hardware and Optimization:** Interfaced Arduino/VR peripherals; optimized UI, scoring, and game performance.
- **Delivery:** Deployed and established training labs for solutions across 8+ military locations with 99.9 percent reliability.

Veniso Solutions

Jul. 2022 – Sep. 2022

*Game Developer Intern*

Hyderabad, India

- Contributed to UI and scoring system implementation in Unity 3D. Gained experience in game design and optimization.

## ACHIEVEMENTS AND RECOGNITION

- **Employee of the Year (2023-24)**
- **Client Appreciation** from Indian Army
- **Appreciation in Field of IT Dept. (2024-25)**
- **Showcased AR/VR Products** at multiple Army and Government Expo

## PROJECTS

- **Command Center:** Real-time Meta Quest 3 streaming (WebSocket) for HAL with backend and frontend.
- **Welding/Painting Simulator:** Army training simulators using Unity and OpenXR.
- **ULSB MK III and ALS:** Custom hand-tracking training interaction modules with MetaXR.
- **iDeX Navy MR AI:** Local AI models with Unity for MR voice/text chat and animated responses.
- **Driving Simulator:** VNM 4DOF motion platform integration and ESP32 vehicle switches with Unity.
- **Tank T-90 and INSAS Gun:** Custom hand interaction and data collection.
- **Game Projects:** UI/score improvements for Bollywood Award Rush, Infinit Flight, Superhero Cube.
- **Admin Database:** Full-stack authentication with API for application login and student database.

## NOTABLE CLIENTS

- **Indian Army** - Welding, painting and driving simulators
- **Indian Navy** - iDeX MR AI Chat system
